PRETTY CROWN BARBER & BEAUTY SALON WEBSITE PROJECT PROPOSAL

Overview

Background

Pretty Crown Barber & Beauty Salon is a beauty salon located in Polokwane, South Africa. The salon was established in 2021 with the aim of providing professional hair care services for women, men and children across two branches in Polokwane CBD and Mall of the North. The business offers haircuts, braiding, weaving, colouring, relaxing, natural hair treatment, manicures and pedicures.

The salon has built a loyal customer base through quality services, affordable prices and excellent customer service. However, the business currently relies mainly on walk-in customers and social media platforms to advertise its services. As a result, many potential customers cannot easily access information such as service prices, operating hours or appointment bookings (Pandey, 2026).

Mission

To provide affordable, high-quality beauty and hair care services while ensuring every customer enjoys a welcoming and professional experience.

Vision

To become one of the most trusted and recognised beauty salons in Limpopo by providing excellent customer service and embracing digital technology.

Target Audience

Men, women, and children in the Polokwane metropolitan area, including young professionals, students, and families looking for hair styling, braiding, haircuts, and nail care.

Website Goals and Objectives

The main objective is to create a professional website that improves the salon's online presence and makes it easier for customers to interact with the business.

The website aims to:

-
- Increase online visibility through SEO.
 - Allow customers to book appointments online.
 - Display all salon services and prices.
 - Showcase hairstyles through a photo gallery.
 - Provide business contact details and location.
 - Promote special offers and discounts.
 - Build customer trust through testimonials.

Key Performance Indicators (KPIs)

- Increase website visitors by 40% within six months.
- Receive at least 50 online bookings per month.
- Reduce telephone booking enquiries by 30%.
- Increase social media engagement.
- Improve customer satisfaction through faster bookings.

Current Website Analysis

Pretty Crown Barber & Beauty Salon currently does not have a dedicated website. Customers depend mainly on Facebook, WhatsApp and Instagram to obtain information.

Current Challenges

- No online appointment booking.
- Service prices are difficult to find.
- Limited business information.
- No professional online portfolio.

-
- Limited online visibility on search engines.

Opportunities

A professionally designed website will improve customer communication, strengthen the salon's online brand and attract new customers.

Proposed Website Features and Functionality

According to Neustroeva (2025), the website of a beauty salon will include:

- Home page
- About Us page
- Services page
- Pricing page
- Hairstyle Gallery
- Appointment Booking Form
- Contact page
- Google Maps integration
- Customer Testimonials
- Frequently Asked Questions
- Social media links
- Responsive mobile-friendly design
- Search Engine Optimisation (SEO)

Design and User Experience

The website will have a modern and elegant appearance that reflects beauty and professionalism.

Colour Scheme

- Rose Gold

- White

- Black

- Soft Pink

These colours create a luxurious and welcoming atmosphere.

Typography

- Headings: Poppins Bold

- Body Text: Open Sans

These fonts improve readability while maintaining a modern appearance.

Layout

The layout will use:

- Large banner images

- Simple navigation menu

- Call-to-action booking buttons

- Professional image gallery

- Footer containing contact details and social media links

User Experience Considerations

The website will be:

- Mobile responsive

- Easy to navigate

- Fast loading

- Accessible

- Consistent across all pages

Low-Fidelity Wireframe

Technical Requirements

Languages & Standards: HTML5 for site structure and semantic tagging; CSS3 for layout and styling; basic JavaScript for interactive map integration and form validation.

Hosting & Domain: Shared Linux hosting package (e.g., Hetzner / [Domains.co.za](https://domains.co.za)) with a [.co.za](https://domains.co.za) domain registration (e.g., www.prettyprownsalon.co.za).

Development Environment: Visual Studio Code with Git version control and GitHub for code repository management.

Timeline and Milestones

Milestone	Target Completion Date	Deliverable
Phase 1: Planning & Proposal	Week 2	Submission of project proposal and wireframes
Phase 2: HTML Structure	Week 4	Creation of 5 linked HTML pages with core content
Phase 3: CSS Styling	Week 6	External CSS styling, colour scheme, and typography
Phase 4: Forms & Testing	Week 8	Integration of contact/enquiry forms and cross-device testing
Phase 5: Deployment	Week 10	Final website submission and live hosting deployment

Budget

Domain registration: R100 per year

Web hosting: R950 per year

Website Design and Development: R 4 500

Content Creation & Stock Media: R450

Maintenance & Support: R1 000

Total Estimated Budget = R 7 000
