Original content creation.....	6-9

3.1. Content Research and Sourcing Plan

1. Organisation's Website (Baseline & Structure)

Usage & Adaptation: Standard website layouts from small service businesses were reviewed to establish a clear structure for this salon website.

Extracted Information: Identified and created the primary navigation bar shown across all web pages, which includes links to Home, About Us, Services, Enquiry, and Contact Us.

2. **Social Media Profiles**

Usage & Insights: Content and service listings from local beauty salons in South Africa were examined to understand standard service categories, working hours, and location details.

Extracted Information:

Service Offerings: Gathered popular local hair and beauty treatments to list on the website, including precision cuts and fades for men, box braids, knotless braids, weaves, relaxed hair care, natural hair treatments, and manicures/pedicures.

Branch Locations: Gathered information on operating two distinct physical locations in Polokwane, specifically the Polokwane CBD Branch (Main Branch) and the Mall of the North Branch.

3. **Public Domain & Creative Commons Resources**

Imagery & Graphic Assets:

Hero Header Logo: Sourced a main graphic displaying male and female hair silhouettes separated by styling scissors, used on the main home page under the title “Step Into Style & Royalty”.

Service Display Images: Sourced clean display photographs for each service category listed on the Services page:

Image 1: A close-up side profile of a precision fade haircut (Gents & Kids Haircuts)

Image 2: A side-view profile of neat box braids/knotless braids (Hair Braiding).

Image 3: A photo of long, smooth black hair extensions (Hair Weaving & Extensions).

Image 4: A photo showing short, reddish-tinted curly hair (Hair Colouring & Relaxing).

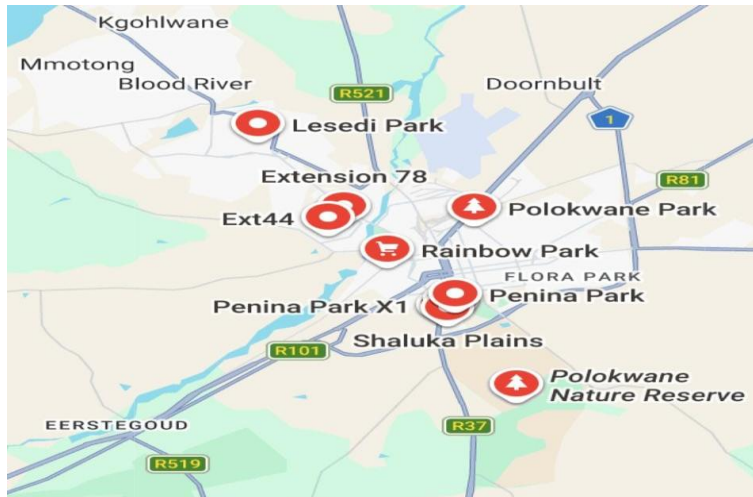

Image 5: A photo showing long, natural Afro-textured hair (Natural Hair Treatments).

Image 6: A photo showing manicured fingernails with red polish tips (Manicures & Pedicures).

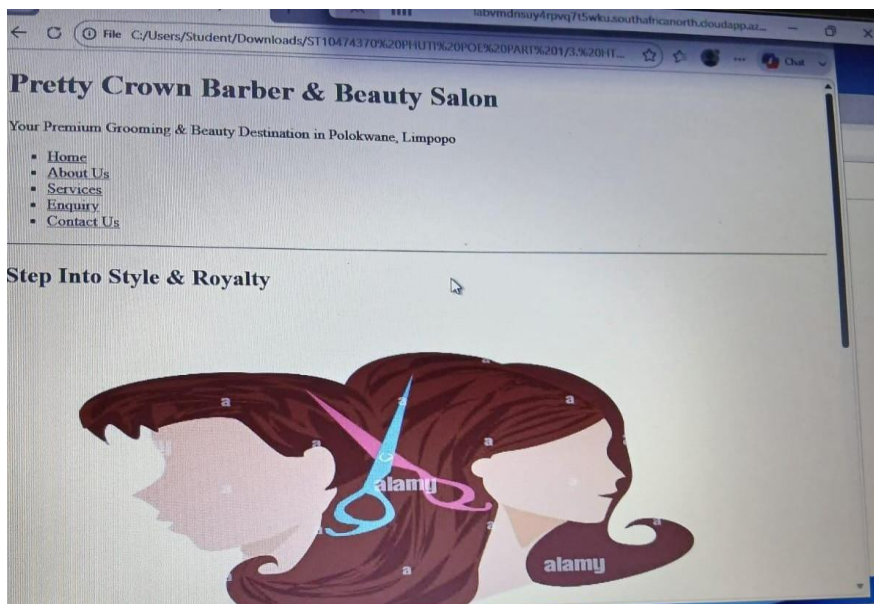

Interactive Mapping Media: Sourced an embedded interactive map view showing central Polokwane on the Contact page, allowing visitors to view street maps and satellite views of the location.

4. Original Content Creation

Written Copy: Written completely original text for all pages to ensure the website reads smoothly and professionally:

Home Page Copy: Written the main headline “Step Into Style & Royalty”, followed by introductory paragraphs describing the high-quality barbering and beauty services offered for men, women, and children in Polokwane.

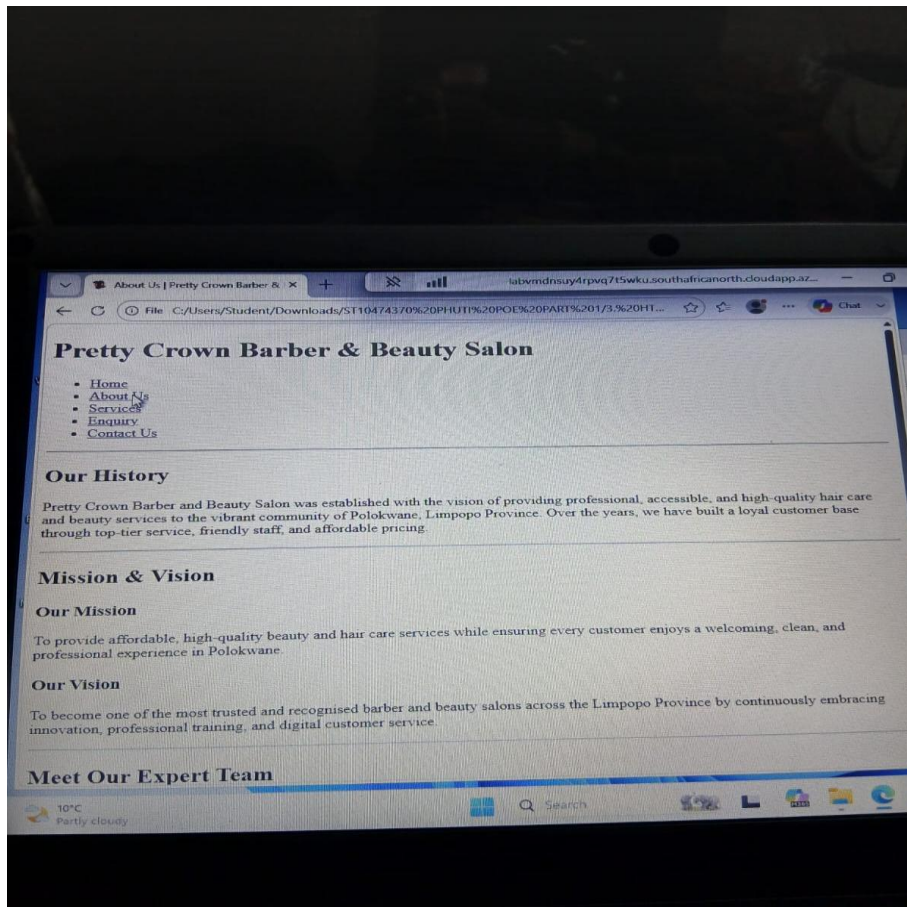

About Us Page Copy: Written the complete company history, mission statement (providing clean, affordable, and high-quality services), vision statement (becoming the most trusted salon in Limpopo Province), and staff profiles for three expert team members:

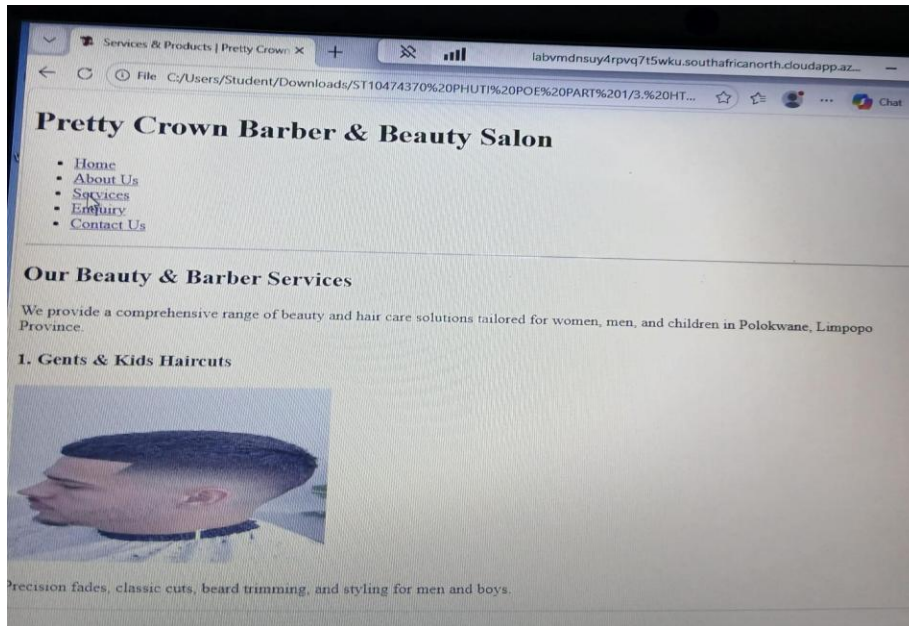

Thabo Ndlovu: Master Barber & Grooming Specialist.

Lerato Mokwena: Senior Hair Stylist & Braiding Expert.

Nthabiseng Langa: Nail Technician & Beauty Therapist.

Services Page Copy: Authored six numbered service descriptions outlining specific options available to clients (e.g., fades, beard grooming, cornrows, wig fitting, tinting, deep conditioning, and gel nails).

Interactive Forms Copy & Layout: Designed and written label text for two complete web forms:

Service & Product Enquiry Form: Sourced and organized input fields for Full Name (e.g. Jane Doe), Email Address (e.g. jane@example.com), Phone Number (e.g. 015 291 0000), Select Interested Service dropdown menu, Preferred Date & Time selector, Your Message / Special Requests text area, along with functional Submit Enquiry and Reset Form action buttons.

Direct Contact Form: Organised fields for Name, Email, Subject, Message, and a Send Message button on the Contact page.

Footer Information: Created standardized copyright notices (© 2026 Pretty Crown Barber and Beauty Salon. Polokwane, Limpopo Province) across all footer sections.
